London, October 30.
Yesterday arrived the Mail from France.

Moscow, October 2.

TWO Days ago arrived here Part of the Retinue and Baggage of Brigadier Romanoff, the Czar's new Ambassador to the Porte, who is likewise expected every Day, having Orders to hasten his Journey to Constantinople. We have Advice from Poltowa and other Places in the Ukraine, that all the Tartars that ravaged the Country thereabouts the whole Summer, are retired and gone Home, and as the Turkish Troops have done the like, the Czar's Army that was posted in those Parts, is separated and gone into Winter Quarters, so that there only remain there now some Companies of Cossacks, which both in time of War and Peace they use to do. All the Letters from Petersbourg confirm, that his Czarish Majesty designs to return hither, but it is much doubt whether that will be before New-Year's Day.

S. C. Oct. 18. * We sehere in Print the History and Actions of our late King Charles XII. which I highly commend, as done with a great deal of Judgment and Exactness, the Author having been constantly about his Majesty till his Death. Since the Wind is turned about, so many Vessels are arrived here from all Parts, that for several Years past we have not had such Store of Provisions. As the Navigation directly from hence to Aland begins now to be dangerous, the Letters for the future will be sent to Petersbourg by the Way of Aland. It is assured, that the greatest Part of our Fleet at Carescrown will be fitted out again next Spring. Though it has been reported that the Duke of Holstein had resolved shortly to make a Journey hither, yet it is much doubted of, even by his Royal Highness's own Creatures.

Vienne, Oct. 18. On Sunday next the Cordeliers will begin a Jubilee of 500 Years, which will last eight Days, in Commemoration that their Order have lived from 1224 to 1724, which makes five Centuries, in the same Cloyster, and on the same Spot. Several Monks of divers Orders are arrived here, going to Hungary, to inhabit the Monasteries lately built on the Frontiers of Turkey, and assist the German Families who are gone to settle there. It is said, that the Age who is upon the Road hither from Tunis, Tripoly, and Algiers, has in Commission to make an Apology for the Orend Ship that was taken, and to conclude a Treaty of Commerce with the Imperial Court; in which Case, a Minister from the Emperor will be sent hither. They talk still of a Journey his Imperial Majesty is to make next Year to Gratz in Styria, if the Empress is not with Child, and they are about finding out the necessary Funds for that Purpose.

Copenhagen, Oct. 24. * The Greenland Company at Bergen in Norway have laid their Complaints before his Majesty, setting forth, that a

Dutch Frigate of 28 Guns, lies upon the Coast of Greenland, not only to secure their own Trade in that Country, but to hinder all other Ships from Trading there. Whereupon the King's Ministers have forthwith communicated those Complaints to M. Buys, the Dutch Minister here, and have at the same time writ to the States General about it; we long to see what Reasons the Dutch will alledge for such Proceedings. The vacant Place of the President of this Capital is not yet given away, nor that of the King's Confessor lately deceased. New Endeavours have been used to introduce into Norway a Matricula, or Register of every Person's Estate; but this Affairs meets with so many Difficulties that it will be a very hard Matter to surmount them. Captain Prætorius no sooner landed here, but he was carried to our Citadel, where he was loaded with Irons Hand and Foot, and is to be forthwith examined by a Commission from the King.

Berlin, Oct. 28. Their Prussian Majesties have at last left Wusterhausen, from whence the King is gone to Potsdam, and the Queen is returned to this City. When the King sent away the 94 Russian Soldiers formerly mentioned, on Monday last, his Majesty proposed to some of them, whether they would stay; whereupon having all of them answered that they had rather return, the King ordered that they should be thanked for their Service, and exhorted them to continue as faithful to their own Master, wishing Pretlement to them all; upon which they made great Shouting in Testimony of their Joy and Gratitude to his Majesty. We expect here the like Number of Russians much taller than those. On the 24th Lieutenant Wedel, condemned to be shot to Death for Defection, was carried accordingly to the Place of Execution, but an unexpected Order came from the King to save his Life just as the Soldiers were going to Fire.

Hambourg, Oct. 31. * We hear from Holstein, that Captain Prætorius, who was lately carried Prisoner to Copenhagen, is actually on the Road for Rensburg, to be confronted with the other Accomplices in the Murder of the old Count Rantzau. M. Adolph Sontom, who passed for one of the richest Merchants here, has failed. They write from Copenhagen, that the Anniversary of the Birth Day of the Marchioness of Cullenbach the present Queen's Mother, was celebrated at Hirschholm on the 19th with great Magnificence. It is assured that her Highness is now resolved to spend her Life at the Court of Denmark. On Saturday last M. Dethmon, the Prussian Post-mister here, received his Credentials as Prussian Resident in the Circle of the Lower Saxony, which he forthwith notified, both to our Magistrates and to the foreign Ministers here.

Paris, Nov. 4. On the 28th past there was a Race of English Horses to be run before the King for a Wager Count de Saxe has laid with a certain Lord, but the same has been put off. The Marquis de Courteau has likewise laid a Wager,

that in whatsoever Place of the Forest he is left in the darkest Night, he will find out the Way, and be at Fontainebleau within the Space of three Hours. On the 15th Instant the Funeral service for the late King of Spain will be performed at the Church of Notre Dame.
